PROFESSIONAL SUMMARY

Passionate Software Engineer with expertise in full-stack web and mobile development, specializing in building modern, high-performance applications. Committed to creating clean UI/UX, scalable solutions, and secure systems. Driven by problem-solving, with a keen interest in AI and decision support systems, I am dedicated to leveraging emerging technologies to innovate and elevate software solutions.

SKILLS

Frontend Development
- JavaScript (Advanced), React, React Native, Next.js
- HTML5, CSS3, Tailwind CSS, Framer Motion, GSAP
- UI/UX Design & Animation

Backend Development
- Node.js, Express.js, Prisma, PostgreSQL, MongoDB, MySQL
- API Development (REST & GraphQL)
- Authentication: JWT, NextAuth, Clerk, nodemailer

Project Management Tools
- Visual Studio Code, Postman, Httpie, Git
- Agile Development, Problem-Solving, Team Collaboration

EXPERIENCE

- Freelance Software Engineer (2023 – Present)

- Developed and deployed multiple React and React Native applications, ensuring engaging UI/UX and smooth performance.
- Built a rental management API using Express.js, PostgreSQL, and Prisma.
- Designed a SaaS portfolio CMS for dynamic project and blog management.
- Integrated Cloudinary for scalable storage solutions.
- Created robust authentication systems using various methods.
- Exploring AI-driven decision support systems

EDUCATION

Murang'a University of Technology *- (Aug 2022 -Present)*

BSc. Software Engineering (Information Technology)

Relevant Coursework: Web & Mobile Development, Database Systems, Cybersecurity, Software Testing, Computer Networking, Artificial Intelligence.

Highschool *- (2018 -2022)*

Kenya Certificate of Secondary Education - (KCSE)

AWARDS

Project Management – InfoLaunch Africa

Certificate in Data Science — Cisco Academy

Certificate in Operating Systems — Cisco Academy

OBJECTIVE

To build cutting-edge software solutions that combine high-performance engineering, security, and AI-driven insights. Passionate about creating applications that enhance user experiences, optimize business processes, and drive innovation.
